

# NOVA SERIES

A complete, variable speed pumping system engineered for light industrial and commercial applications.

## Specifications

**System type**  
Variable speed, end suction centrifugal

**Applications**  
Pressure boosting  
Suction lift  
Flooded suction

**Electrical input**  
208 Volt / 3 Phase / 60 Hz  
240 Volt / 1 Phase / 60 Hz  
240 Volt / 3 Phase / 60 Hz  
480 Volt / 3 Phase / 60 Hz

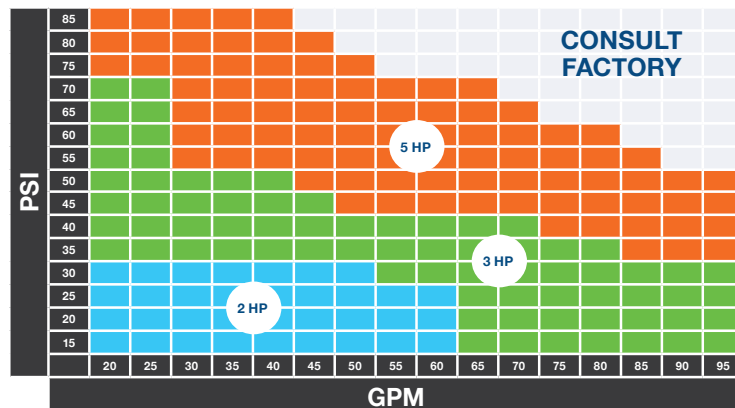

**Flow range**  
20–95 GPM

**Boost pressure**  
15–85 PSI

**Horsepower**  
2, 3 & 5 HP

**Site Applications**  
Parks  
Schools  
Residential  
Commercial

## PERFORMANCE RANGE

### EASY INSTALL

- Speedy shipping—2 Week Delivery
- Arrives pre-wired, pre-tested and ready to pump.
- Just set, connect, and start pumping!

### DURABLE CONSTRUCTION

- Marine-Grade Aluminum Enclosure
- 304 SS Piping
- Stainless steel sensors
- Industrial Grade centrifugal pump powered by continuous duty electric motor

### SMART CONTROLS

- User-friendly color-touch screen
- Automatically maintains constant line pressure at variable flow rates
- Reliable system protection
- Monitors system performance
